

Butter Me Up

The easiest way to
butter your corn on the
cob!

introducing

Butter Me Up

Corn Buttering Device

**The easiest method to butter
your corn on the cob!**

The base allows an entire stick of
butter to rest on it.

The top half "cradle" easily slides
over the base with butter, allowing
your corn to rest on top of the
cradle.

Simply rotate your corn on the cob
to easily apply the butter to all
portions of the corn.
